

RODRIGO ACUNA AGOST

Chairman // Directeur de la Recherche IA
AMADEUS

amadeus

Dr. Acuna-Agost has more than 15 years of professional experience in Artificial Intelligence and Operations Research. Currently leading the AI Research department at Amadeus.

His main responsibilities include leading exploratory and applied research activities with focus on AI and OR applications related to the travel industry (e.g., airlines, airports, travel agencies, etc). Strongly committed with the research community, his works have been presented at more than 40 international conferences and published several research papers & patents in these fields.
